

As all our customers have experienced first-hand, Condo Protego's primary focus is to deliver highest levels of Enterprise Support, **Locally**, to our customers in UAE.

In the past years, we have consistently enhanced our Support delivery mechanisms through investments like a dedicated Call Coordinator and a single email address for support call outs. We are pleased to announce that in our constantly on-going efforts to improve customer Support experience with us, we have now introduced a new TOLL FREE, easy to remember number, 800 CONDO (800-26636), making it even more easier for our customers to reach us 24 x 7 x 365. This is in addition to the other contact numbers already provided to our customers.
